Balancing Game
(2 players)

Materials: 1 circular cork board, 1 plastic cup, 1 whiffle ball, 1 die, a set of unifix cubes (or other stacking pieces)

Objective: Be the last person to place a cube on the board without making anything fall off.

To Play:

1. Players place the ball in the cup and balance the circular cork board on top of the ball.

2. Players decide who goes first.

3. Players take turns rolling the die and taking the same number of cubes as is shown on the die. For example, if a player rolls a 2, the player takes 2 cubes.

4. Players carefully place the cubes on top of the board in any arrangement, trying to keep all of the cubes on the board.

5. Play continues until a cube falls off the board during a player’s turn.

6. The last person to place a cube on the board without any cubes falling off is the winner.
