Everybody stopped and said, "We missed you SO MUCH!" Emma said, "Where were you?" Mrs. Teen said, "Somewhere you do not know."

The next day Mrs. Teen said, "Everybody sit down please. I have a story to tell you." All of the kids sat down. Mrs. Teen told them the story. When Mrs. Teen told them that she was trying to see how they would act, she said, "I was pretending to be Ms. War so I could see the class a different way." At the end, everybody said, "It was you?" "Yes it was!" said Mrs. Teen. After the day ended, Mrs. Teen was so tired!

If I could invent anything in the whole world, it would be a robot named Rob. Rob would be tall and have a lot of parts. Rob would be my assistant. He would help me do things every day. He would help me get food from the fridge. He would play video games with me. He would also tuck me into bed at night. Rob would be the greatest robot man.

A balloon flew to the moon. The point of the crescent made it pop. It made it drop. It fell to land and into my hand. I gave it a look. Then I took it to my dad. It was the balloon his he had.
THE MAGIC SCHOOL BUS GOES TO MINECRAFT IN SURVIVAL MODE

From reading this book, you will learn to survive from the monsters! You will also learn to stay alive by finding and eating food! You will survive if you build a home or find a village. It is important because it builds creativity and makes you use effective strategies to survive.
To a soccer ball,

Have you ever played football before? Football has a Hall of Fame to reward the best players in the NFL* in their class. After playing football for a while, players will retire. Then, 5 years after retirement, players find out if they go to the Hall of Fame. Only the best players of their class go to the Hall of Fame and get a yellow jacket.

There is padding to stop the pain in football. All of the equipment for your head is a mouth guard, helmet, and chinstrap. For your chest you need a padded shirt, gloves, and shoulder pads. Equipment for your legs include knee pads, socks, and cleats without metal spikes.

You get kicked in soccer. In soccer, you kick the ball with your feet. When one of the players has the ball sometimes they get tackled. If the ball comes towards the goalie, they try to stop it and get hit with the soccer ball.

Sincerely,
Football

Hockey Quest

Once upon a time, there were six kids and one adult. Their names were Landon, Andrew, Jacoby, Hayden, Harry Potter 1, Harry Potter 2, and Dumbledore. They were all at Dumbledore's kingdom and they were playing video games for days. Then, a bunch of zombies came out of nowhere...Dun Dun Dunnnn...

After that, they all had to get some of Dumbledore's weapons to protect themselves from the zombies. Then, they all got hockey sticks, hockey pucks, and hockey skates to get away from the zombies faster and they went to Harry Potter 2's house to get spells and wands. Then after that, they rushed to the hockey rink.

Then when they all arrived at the hockey rink and all the zombies were killed, they all started to play hockey and lived happily ever after. The End.
When I Grow Up

When I grow up I want to be a professional soccer player, because it is my favorite sport. I want to be a goalie and defender. The reason I want to be both is because I can stop goals. The other reason I want to be a goalie is because goalie is my favorite position. I can tell people where to go. Another reason I want to be a defender is because I can move around more. Do you know Lionel Messi? I do and I want to be Messi, but being on defense instead of forward. These are some of the reasons I want to be a professional soccer player when I grow up.

All About Bethany Hamilton

Bethany Hamilton had to overcome many difficulties through her experience. Before the shark attack Bethany went surfing all the time. When the shark attack happened Bethany thought she couldn’t go surfing again. After the shark attack Bethany went surfing again. The shark attack helped Bethany become the person she is today.

Before the shark attack surfing was an everyday activity for Bethany and her family. Surfing has been a hobby for Bethany ever since she was a little girl. Bethany learned how to surf from her parents. Both of her parents surf. Bethany practices every morning for the competitions. Surfing has always been important to Bethany.

It was a typical Halloween morning. Bethany was surfing with Alana. While Bethany was surfing she saw a black shadow in the water. Out of nowhere there was blood everywhere and there was a chunk missing from her surfboard. The serrated edges of the shark’s teeth had bitten off Bethany’s arm. The shark had bitten Bethany, but she was still conscious. Alana’s dad, Holt, helped Bethany out of the water. When Holt got Bethany out of the water he tied a tourniquet on her arm to stop the blood flow. Soon the ambulance came and took Bethany to the hospital. When Bethany got to the hospital her family and her friends were waiting for her. Bethany had lost her whole arm.

After the shark attack Bethany had some recovering to do. Bethany was in denial after the shark bit off her arm. A lot of her family and friends helped her raise money for a prosthetic arm. Many members of the community had compassion for Bethany; they wanted her to get better. After Bethany was healed she started to go surfing again. When Bethany started going surfing she had good vibes, she was positive. News stations interviewed Bethany as she started to become famous. Bethany wanted her life to be the same after the shark attack but it was forever changed.

The experiences Bethany has gone through has shaped her into the person she is today. After the shark attack Bethany went on trips with her church. She started surfing a month after the attack. Bethany goes to interviews to talk about the shark attack. Bethany has also made a movie to show her experience.
