Practicum in Teaching Children Creative Movement and Dance

- Class meets once a week, Mondays 12:00-12:50 in the Wellness Recreation Center room 185.
- Teach one hour a week in an elementary school before or after school.
- Learn to build creative movement and dance units and teach them effectively.
- Gain marketable skills that will enhance your teaching and set you apart.

GET INVOLVED
The University of Northern Iowa has an exciting dance program with diverse goals. Learn more about the many opportunities in dance here.

MAKE A DIFFERENCE
Students in the Cedar Falls community deserve quality instruction in creative movement. Learn to bring about the cognitive, affective, and psychomotor benefits of dance education in an elementary setting.

SHAPE THE PROGRAM
This practicum class has undergone an exciting transition in the last year, incorporating a new textbook and partnering with the YMCA before and after school programs. We are looking forward to expanding in the fall of 2014 and reaching out to more schools in the area.

Spend the first few weeks of the spring receiving training and practicing teaching short lessons among your classmates. Then begin to write exciting lessons and receive feedback from both a Faculty Instructor and an experienced student Head Instructor. Midway through the semester, students move into the field and teach in elementary schools once a week.

Through reflection and discussion, find growth and become a better teacher in an environment of support.
